Specifically, and without limiting the foregoing, Grantee represents and agrees that (i) no toxic or hazardous substances have been or shall be generated, treated stored, disposed of, or otherwise deposited or released in or on the Pipeline Easement; (ii) Grantee has and will not engage in and has and will not permit any other party to engage in any activity with respect to the Pipeline Easement which would cause (a) the Pipeline Easement or the adjoining property of Grantor to become a hazardous waste treatment, storage, or disposal facility within the meaning of the Resource Conservation and Recovery act of 1976 ("RCRA") as now or hereafter amended or any similar state law or local ordinance or other environmental law, (b) a release or threatened release of a hazardous substance from or to the Pipeline Easement, or the adjoining property of Grantor within the meaning of the Comprehensive Environmental Response Compensation and Liability Act of 1980 ("CERCLA") a snow or hereafter amended, or any similar state law or local ordinance or any other environmental law, or (c) the discharge of pollutants or effluents into any water source or system or the discharge into the air of any emissions which would require a permit under the Federal Water Pollution Control Act or the clean Air Act or any similar state or local ordinance or other environmental law; (iii) Grantee has not and shall not permit any substance or conditions in or on the Pipeline Easement or the adjoining property of Grantor which support a claim or cause of action under RCRA, CERCLA, or any other federal, state or local environmental statutes, regulations, ordinances, or other environmental regulatory requirements; and (iv) no underground storage tanks have or will be located in or on the Pipeline Easement. As used in the preceding provision, the term "hazardous substance" and release shall have the meaning specified in CERCLA and the terms "solid waste" and "disposal" (or "disposed") shall have specified in RCRA; provided, in the event wither CERCLA or RCRA is amended so as to broaden the meaning of any term defined thereby, and provided, further to the extent that the laws of the State of Texas establish a meaning for such terms which is broader than that specified in either CERCLA or RCRA, the broader meaning or definition shall apply. Upon the termination of this Agreement, the covenants and obligations of Grantee respecting restoration specifically shall include, without limitation, the environmental and contamination provisions of this paragraph. Notwithstanding the foregoing, the transportation by Grantee of substances permitted by this agreement wholly within the Pipeline shall not be considered a violation of this Paragraph.
